

Series of wall bookcases with a metal frame and wooden shelving. The frame is composed of two reeds in polished chromed metal. The bookcases can have shelving in different colors, too. The shelves are fixed to the structure through socket-head screws and the bookcase is fixed to wall through one expansion hook.

Materials used_

Structure:

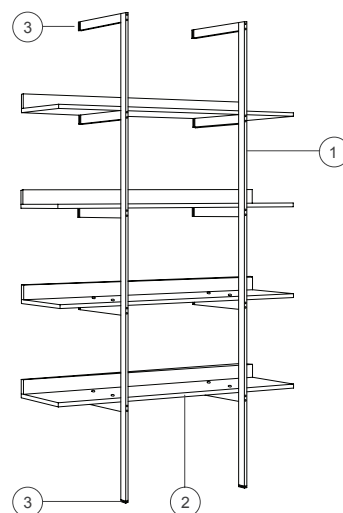

1. Metal tube chromed

Shelves:

2. Panels made of wood particles veneered melamine, matt or glossy colors listed in the catalog or veneered in natural or stained oak with back corner shelves in black painted metal to support shelves

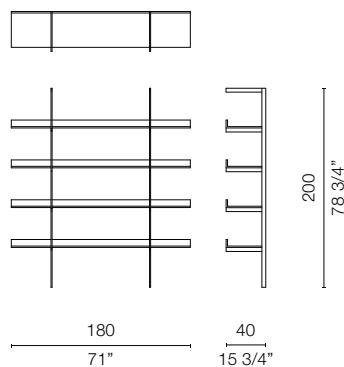

Feet:

3. Black rubber
