jolly

by Kate Stokes, 2018

Arising from the desire to create a playful lighting collection, Jolly is an exploration of form and material.

Translucent, hand-blown glass is juxtaposed against solid-coloured metal rods and shades to create a balance of material composition, while the asymmetric elfin-like form injects a cheerful sense of joy.

Jolly is available in a refined pallet of black, eucalypt, burgundy and satin-polished brass, designed to complement the soft glow of the opal glass shades.
