

Børge Mogensen Conscious Chair BM3162

FSC® certified wood and
coffee shell waste mixed with
upcycled industrial plastic

Børge Mogensen Conscious Chair designed in 1958 by the renowned Danish furniture designer and architect Børge Mogensen. The chair is made of FSC wood and Mater Circular Materials, where an innovative technology allows us to upcycle fibre-based waste materials with upcycled plastic waste. It is the first time that a Børge Mogensen design has been relaunched in a different material than the original. The chair is available in three versions.

Wood Waste Grey

Coffee Waste Black

Coffee Waste Light

Designed by
Børge Mogensen and Esben Klint

Item no.
10001 Conscious Chair,
–Soaped Oak and Coffee Waste Light*
