

BM5462

Table

// Made from FSC certified wood

Designed by

Børge Mogensen & Esben Klint

Børge Mogensen Conscious Table is a Danish modern from 1958, designed by the renowned Danish furniture designer and architect Børge Mogensen and Esben Klint.

The BM5462 Table is a part of Maters Børge Mogensen *Conscious Collection* and the first collection from Børge Mogensen.

The table is crafted from solid FSC® certified oak wood, the label for responsible forestry, which means the wood comes from responsibly managed forests.

The BM5462 Table is made with extension leaves, to easily add extra length, that are coloured in the characteristic Børge Mogensen grey colour tone. The BM5462 Table is suitable both for private and public use, as a dining table, meeting table or desk table.
