Pinch

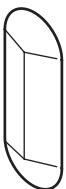

Pinch c/o Kate Stokes

The design of Pinch is quiet and unfussy – a celebration of pure geometry that can be seen equally as a wall sculpture and a functional guiding light.

A simple, elongated wall light, offered in two lengths – 400 millimetres and 900 millimetres. Its shield-like form is characterised by a central sharp line or 'pinch' that allows light to fall differently on each side of the terracotta, accentuating the natural beauty of the material.
