### Angelo Mangiarotti

Italian architect, sculptor and designer Angelo Mangiarotti (1921 - 2012) is quoted to have said, "Happiness comes from honesty". A quote that hints to his overall design approach rooted in the firm belief that architecture was a practical discipline and that industrial design was an expression of fine craftsmanship. He wanted each individual material to be respected and to be used in an appropriate and honest way. Beyond his many architectural feats, Mangiarotti's body of work boasts a wide array of creative projects from sculpture, to products and lighting.

Defined by clean lines and simple construction, the Alola floor lamp by Angelo Mangiarotti transcends the boundaries of time.

The piece features a base crafted from Nero Marquina marble which elevates its design while providing a solid foundation that complements the lamp's frame, available in black powder-coated and chrome steel.

The lamp also includes a dimmer positioned inside the lampshade which allows you to adjust the light intensity simply by touching the lampshade's end.

This feature enhances its practicality and offers users versatile control over the ambience of the light.
