

FBOO1 TSUGI SHELF

SHARON FISHER AND MATTEO BARENGHI

BY APPOINTMENT TO
THE ROYAL DANISH COURT

CARL HANSEN & SØN

DESCRIPTION

The Tsugi Shelf for Carl Hansen & Søn was designed in 2021 with equal focus on form and function. The apparently simple shelf exploits the principles of the ingenious and precise Japanese Sashimono carpentry, concealing the locking mechanism without visible transitions.

DESIGNER

Interior architect and designer Sharon Fisher and architect Matteo Barenghi started their Danish-Italian collaboration across borders in 2008. Since then, the two architects and designers have created timeless pieces with a significant focus on quality. The focal points of the design duo are the search for natural simplicity and the fascination with suitable materials and skilled craftsmanship.
